

together we are a legacy

Our parish was established on a strong faith and a solid legacy. We are all a part of that legacy now as we pray, participate, contribute, hope and dream. Together, we are the legacy of St. Elizabeth. Together with those in the past. Together with our neighbors in the community. Together with one another. Together with God. Together, we are a legacy.” – Fr. Greg

Progress on Visioning Goals/Priorities from Fr. Greg (6/15/15)

Parish Staffing: Our staff went on retreat recently and spent some quality time together and with God. It was one of the directives from our Visioning, and it was a great gift to us. We spent the time learning about the Enneagram. What I love about the Enneagram is that it emerged from the Christian Desert tradition (where the roots of Monastic life are found) and is grounded in ancient wisdom and a call to radical honesty with ourselves. It's a tool that, while it may sound unsettling, can be so life-giving and can bear remarkable fruit in the Christian Life. Our staff had a great experience of it and will continue to reap the benefits of it for some time to come.

Facilities: Another of the directives from our Visioning calls for a professional space utilization study of the St. Elizabeth campus. The study will help us to keep maximizing our use of the buildings and grounds that occupy our campus. Preliminary groundwork is happening now for us to begin that in earnest in the fall.

There is some other groundwork happening in relation to other Visioning recommendations that you will hear more about in the fall. In the meantime, enjoy the summer. I know for some of us, it's a busier time with our work. But I hope everyone finds some time for rest, recreation and maybe even a vacation!
